No Cessation in the Fight Between Masons and Stonecutters.

The National Organization May Be Called Upon to Settle the Matter. Trouble Is Adjusted-The Issue Ex. pected to Come to a Head Friday

Relations between the members of the Bricklayers and Stonemasons Unions, and the Stonecutters' Union, are to badly strained that rumors of a projected strike are in circulation. In fa t it is rumored that the strike was initiated or precipitated by the bricklayers and stonemasons on Monday, by their refusal to work with the local stonecutters.

The trouble originated between the stone

cutters and the stonemasons, and the in-terest shown by the bricklayers is because of their affiliation with the latter through of their affiliation with the latter through their national organization. Their action in joining the stonemasons in their re-fusal to work with the stonecutters is entirely sympathetic. It is also said that the immediate cause of the trouble is based on a resolution passed at a meeting of the Stonecutters some time ago, by which it was declared unlawful for the stonecasons to set any stone prepared for stonemasons to set any stone prepared for

stonemasons to set any stone prepared for laying by the local stonecutters.

Since trouble between these organizations has become imminent the matter has been a subject of serious considuration by the Central Labor Union, the Building Trades Council, and the local Federation of Labor, central labor bodies with which the unions referred to are affected to a serious referred to are affected to a serious referred to are affected to a serious referred to a serious refer with which the unions referred to are af-

Will a Boycott Follow?

The stonecutters are represented by delegates in the Building Trades Council and the local Federation of Labor, and the stonemasons and the bricklayers in the Central Labor Union. The question which presents itself, therefore, is, Will either the Building Trades Council or the Central Labor Union place a boycott against the members of a union represented in cither of these central bodies? It is reported, however, that the Bricklayers' Union will take telegraphen settion based on the laws. take independent action, based on the laws take independent action, based on the laws by which they are governed, through their national organization, and make a fight to a finish with the stonecutters. With this purpose in view, it is said that the mem-bers of the local Bricklayers' Union have been notified not to work with members of the Stonecutters' Union.

Orders to this effect, it is stated, were

Orders to this effect, it is saided, weighted send Monday, and two days were allowed for the notification of the members. The time limit will expire tomorrow, but that being a holiday, it is not known whether the order will go into effect until Friday

Mr. McHugh Predicts a Strike

James T. McHugh, for many years very prominent member of the Stonecutters' Union, said today that he expected that a general strike will take place, because the Stonecutters do not intend to re-

rause the Stonecutters do not intend to rerede a step from their position.

"Last Friday night," said Mr. McHugh,
"a delegation from the Masons attended
the meeting of the Building Trades Council, and demanded that the Stonecutters rescind a resolution adopted a long
time ago, providing that the Stonecutters should set all the stone they cut.
The reason alleged for this demand by the
Stonemasons and Bricklayers is because
the constitution of the Stonecutters prothe constitution of the Stonecutters pro vides that they shall cut all shoddies, in-cluding all broken ashlar, rock faced ash-lar, range or random ashlar in the rough, jambs and corners, and lay the same. The Stonecutters cannot permit such a claim to be enforced, for it is taking from them a

"The bricklayers and stonemasons said at this meeting Friday night that they would give the stonecutters until Monday would give the stonecutters until Monday to comply, and that if the stonecutters then refused a strike would be ordered. When Monday came we refused to grant the demands and the brickhayers took off men from Mrs. Townsend's house, the rail-way offices at Thirteenth Street and the Avenue, and the Hearst school-about a dozen men in all. This, too, was done with the knowledge of Milford Spohn, of the Bricklayers' Union, notwithstanding that Spohn declared Friday night at the Building Trades Council that the bricklayers 17.36 for each thousand of the whole population: that for the whites being 15.30 and

layers are trying to force the unjust de-mands of the stonemasons. They want to get even for the defeat we gave them about five years ago. Much of the bitter feeling that now exists has been brought about by scab stonecutters employed at the "Star building. Curiously the bricklayers do not object to work with these scabs, but they are trying to deprive union cutters of a livelihood. I expect there will be a strike.

TELEPHONE GIRLS STRIKE.

They Resent Orders Not to Talk Ove the Switchboard.

NEWPORT NEWS, Va., Nov. 29.-The girls employed in the Bell Telephone Exchange, in this city, are out on strike. The manager of the system here says he had received complaints about the operators talking over the switchboard, and sent in a talking over the switchboard, and sent in a pledge setting forth that the operators would refrain from this source of annoyance to the subscribers, requesting that the chief operator sign it. She refused, and resigned her position, the other girls in the employ of the local exchange following her example.

Their places were filled vesterday and

MR. CHASE TO STAND TRIAL.

Varrants Issued for the Manager o

P. B. Chase, of the management of the New Grand Theatre, and Policemen Harry Warren, and Charles H. Murphy of the First precinct, were the defendants in the Police Court this morning on charges of

Police Court this morning on charges of assault preferred by Nelson E. Weather-less, colored.

Weatherless claims that the defendants forcibly ejected him from the New Grand Theatre on November 18. Each of the defendants entered a plea of not guilty, and demanded a jury trial. Judge Scott set Wednerday next as the date for the hearing of the case, and ordered the defendants

ing of the case, and ordered the defendants released in \$200 bail each. Attorney Henry F. Woodward apeared for the defendants. The information against Mr. Chase was issued at 10 o'clock, after Assistant District Attorney Mullowny had heard statements from witnesses for the prosecution and defence.

DISTRICT HEALTH REPORT.

Sinety-six Deaths During the Week Ended November 25.

The report of the Health Officer for the week ended November 25, which was made public this afternoon, shows that there were 96 deaths in the District during the past week, of which 58 were white and 38 colored. The annual death rate was lation; that for the whites being 15.30 and pared with the last report, from 2 to 13, and a decrease in kidney ailments from 7

Of scarlet fever there were 72 cases in

marantine at the close of last report. Dur ing the week 16 new cases occurred and 17 were discharged, leaving 71 cases, with warning cards, in 52 premises.

The 5 cases of smallpox heretofore reported are still in hospital. No new cases

Prices in Wall Street Beyond Yesterday's Closing Figures.

ention of the New Currency Bill. United States Leather Not's Sharer in Advances-A Rise in Sugar Refining and Manhattan Railway

NEW YORK, Nov. 29 .- With the single exception of United States Leather, common, the market opened this morning at substantial advances in comparison with last night's final figures. As regarded the general market, the publication in this morning's papers of the new currency bill, was probably the chief incentive to conf-

New York Central, Pennsylvania and Baltimore and Ohio, were directly affected further by the reported deals by which the Pennsylvania railroad will control the Baltimore and Ohio, and by which both the Chesapeake and Ohio, and the Cleveland. Cincinnati, Chicago, and St. Louis pass into the entire control of the Vanderbilts. The initial advance in prices was suffi-ciently extensive to induce heavy profit-realizing sales under which recessions business tomorrow, over the Thanksgiving

and a decrease in kidney allments from 7 to 3. In the class of infectious and contagious diseases there were 6 fatal cases of typhoid fever, 5 of diphtheria, and 1 of scarlet fever.

There were at the close of the last report 75 cases of diphtheria, in the District, under treatment. During the week 31 new cases were reported and 35 were discharged, leaving 68 cases in isolation in 61 premises.

An advantage of the last reported and 25 were discharged, leaving 68 cases in isolation in 61 premises. Manhattan railway, Sugar Refining, and the lower priced issues.

olorado Fuel & Ir..... 52% 52% 52% 52% 52% 52% The stock market this morning was the best of the week, and there was a quite expectation that the good buying would result in some excellent advances in the list generally before the close over the holiday. The general news from South Africa and Manila, the several excellent earnings statements, the continuance of the flow of money to New York, seemed at last to have accomplished two things—a return of confidence in the public and a fright for the shorts. It is difficult to say which of these things was the more potent cause of the advance. The shorts certainly covered somewhat heavily, but also there was clear syidence that the commission houses were executing orders. Added to this there was good clique buying in a number of securities. The prediction of the careful financial people on Sunday that the week would show an advance in prices now seems certain of fulfillment. If prices close with thir net gains today there will be but two The stock market this morning was the

days left of the week, and these are likely to be affected favorably by the general ex-pectation of a good bank statement.

Two stocks that showed activity and are strength this morning were Northern Pa-cific and Atchison, preferred. It has been suggested in this column heretofore that the fine statement of the company would al-most certainly induce buying of the stock for investment and speculation. The com-pany is now earning a good surplus over 5 per cent on the preferred stock, and on this basis the price of the stock, 86, does not look high enough, as has been pointed out many times. It may be mentioned that the completion of the company's line to San Francisco in the near future will add much to its business and earnings in the future, It should do a far larger share of the transcontinental Pacific business from your continual Pacific business. continental Pacific business from new or than it has in the past.

Northern Pacific, common, was bough steadily during the first hour and shortly after 11 o'clock it sold above 56, which has been its previous high price on this movement. Northern Pacific, common, is the only one of the common Pacific securities that has not yet advanced to a new high price this autumn, Southern Pacific and Union, common, both having broken through their previous high prices a week or two ago. It seems extremely probable that this stock will now follow suit and self around 57, and a fraction, at least, within a very short time.

Leather, common, was again without support, and it was sold off rapidly from 14 to below 11 in the first hour. Immense "The Bricklayers' Union in this city numbers over 1,000 members, while the Stone-tures of the health conditions prevalent ty-five. Knowing their strength the brick-ty-five. Knowing their strength the brick-ty-five. blocks of the stock changed hands all the way down, and it was very evident that some one was unloading a very large amount of it. Nothing was told of the Leather people's affairs this morning. The cause of the selling was probably the declaration of a larger dividend for the preferred stock, which should be interpreted as against the interests of the common. Such an argument would imply that the preferred stock should be bought, which was not the case, however, at least during the morning hours. The public invests in Franklin syndicates by the millions of dollars, and the Leather, common, stock is no worse a bunco game that fine plan, so that perhaps there should be no surpirse at the success of the people that have advanced this stock from 6 to 40, and then let it off again from 40 to 10, in the space of a off again from 40 to 10, in the space of a month or two, roping in the public coming

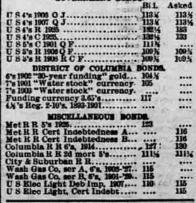

There is much talk of the "Pennsylvania-New York Central-Baltimore and Ohio deal." It is known that the Vanderbilts have been buying Baltimore and Ohio securities heavily, and there is good evidence that the Pennsylvania insiders have been active buyers of the stock as well. What this buying means no one seems able to say with any certainty as yet. The to say with any certainty as yet. The talk of a closer traffic alliance among the lines is the most plausible, and it would not surprise careful observers if ome such agreement were annot the near future. The fact that Londo and Berlin investors have also been buy-ing the three stocks heavily, indicates that the plan, whatever it is, is of large im-

The part which the corpuscles of the blood play in making good the loss occasioned to the body by wear and tear, and in carrying off the effete or worn out material, has been compared to the part played by a soldier. The corpuscles of pure blood are our soldier-friends, who repair the worn-out tissues of the body, and fight against disease-germs. The first condition for good health is pure blood, and that can only be obtained and kept by taking pure food Adulterated food-stuffs and drinks are the pests of the modern market, and all too often health considerations are sacrificed to apparent cheapness. If you would have a pure drink, take cocoa, but let it be a pure cocoa, such as Van Houten's, which is highly digestible, extremely soluble, and of most delicious taste. It is cheap, too, for it costs less than a cent a cup. It is easily made; it has an attractive aroma; and it contains more nourishment than an equal quantity of

THE LITTLE SOLDIERS IN YOUR BLOOD. the best beef-tea. BE SURE YOU TRY VAN HOUTEN'S Eating CHOCOLATE.
